

Statutory Assessment Data

**Please note, due to the smaller than average size of our school cohorts, the data in many of our year groups are not statistically significant and percentages can be very misleading. We look at the attainment and progress of all our children on an individual basis from their starting points. Additionally, we are well above national for children with high level needs. This also needs to be considered when viewing percentages.*

**Awaiting national figures for EYFS / KS1 data*

The government will not publish KS2 school level data for the 2021 to 2022 academic year. They have archived data from the 2018 to 2019 academic year because they recognise that the data from that year may no longer reflect current performance.
