Please note, due to the smaller than average size of our school cohorts, the data in many of our year groups are not statistically significant and percentages can be very misleading. Data appears to fluctuate year-on-year. **We look at the attainment and progress of all our children on an individual basis from their starting points. Additionally, we are well above national for children with high level needs. This has increased significantly in recent years. We have a specialist resource provision on site to support the Local Authority, these figures are included in the data and can disproportionately impact data outcomes due to the small cohorts and relative size of the provision. This must be considered when viewing percentages.*
